BATCH No.: DOM

## Gibb-Gro Potassium Humate (Humic Acid)

### DIRECTIONS FOR USE

This product is fully water soluble and is easy to spray using all common spray equipment types. Apply 3-4 times per year to maintain optimum soil microbial activity.

#### Boom or Rosette

1.5g-3kg of Gibb-Gro Potassium Humate per hectare in 100-200 litres of water minimum (300-500L is ideal).

#### Hand Gun

15-20g per 100 square meters in about 5 litres of water.

Gibb-Gro Potassium Humate is ideal to be sprayed with Gibb-Gro Seaweed extract flake however we do not recommend mixing Gibb-Gro Gibberellic Acid with Potassium Humate.

This product is non-hazardous. Store in a cool, dry place, in an airtight container.

---

### FIRST AID

- Eye contact: Immediately flush with lukewarm, gently flowing water for 15 minutes. Obtain medical attention.
- Ingestion: Rinse mouth with water. Do not induce vomiting. Seek medical attention
