

Gibb-Gro

Seaweed Concentrate Flake

Animal Feed Nutritional Supplement

GENERAL INFORMATION:

Gibb-Gro Seaweed Extract Flake is a natural environmentally friendly fast-dissolving flaked Seaweed

Harvested from the cold Northern Hemisphere waters *Ascophyllum nodosum* is considered to be the Rolls Royce of seaweeds.

The cold composting process retains all of the natural attributes of the kelp including 70 minerals, 17 amino acids, 4 natural growth promoters, chelating agents and complex sugars.

For centuries Seaweed has been used for its nutritional and health benefits for both humans and animals.

BENEFITS:

There are many documented problems caused by dietary deficiencies in stock. The trace minerals and amino acids in Seaweed Treat covers most of these deficiencies. Trace minerals and amino acids are associated with providing benefits in the following areas.

- Antioxidant/Anti Cancer
 - Copper
 - Selenium
 - manganese)
- Improved regularity of heat cycles and fertility
 - Zinc
 - Manganese
 - Amino acids
- Improved haemoglobin production
 - Iron
 - Copper
 - Amino acids
- Immune system
 - Amino Acids
- Mastitis
 - Selenium

- Vitamin E
- Healthy Gut
 - Molybdenum
 - Amino acids
- Coat Condition
 - Zinc
 - Copper
 - Sulphur
 - Amino Acids

See the Table later in the document.

HOW TO PLACE AN ORDER:

- Call Gibb-Gro Ltd on free call 0508 GIBBGRO (0508-442 247) or order from our website www.Gibb-Gro.co.nz.

PRODUCT COMPOSITION:

Substance: *Ascophyllum nodosum* Seaweed

TYPICAL ANALYSIS

Nitrogen	1.9%	Zinc	800ppm
Phosphorus	2.35%	Boron	5000ppm
Potassium	17.7%	Manganese	10ppm
Calcium	0.4%	Cobalt	10ppm
Magnesium	0.44%	Sodium	4.65%
Sulphur	1.1%	Iodine	20ppm
Iron	5000ppm	Amino Acid	4%
Copper	10ppm	Organic Matter	45 – 50%
